WARNING

BY ORDER OF
 Insurance and Safety Fire Commissioner

- Turn off engine.
- No smoking or open flames in the fuel dispensing area.
- No one under 16 may use pump. Do not leave pump unattended when in use.
- Turn off cell phones and other electronic devices.
- Discharge your static electricity before fueling.

Before using pump, touch any metal on the car away from your vehicle's fuel filler with bare hands. This will discharge static electricity on your body. Failure to fully discharge may create gasoline vapors.

Do not reenter your vehicle while gasoline is pumping. This can re-charge your body with static electricity. If you must reenter your vehicle, discharge static electricity again before touching the pump nozzle.

If a fire starts, do not remove nozzle. Back away immediately and tell attendant. If no attendant is on site, use the emergency shut-off button to stop pump.

- Do not put fuel in unapproved containers.

For help - call attendant.
